

From 10 Ways to Survive life in a Quarantine

By Don Zolidis

ALLISON, *in a quarantine, studios.*

ALISON

Hi everyone! I'm Alison and I'm here to help you! This is a difficult time for everyone, but I think the best way to forget about everything is put your nose down and really focus on school right now. I am and I LOVE IT. I am learning so much! Yes I have three little sisters that are driving me crazy, but guess what? I can lock and bolt my door and booby-trap the hallway so they can't get at me! I just put some headphones on, dive into trigonometry, and ignore their little screams. Numbers are my friends now.

Speaking of friends, I am actually running a special right now for math help. If you need someone to do your math homework for you, just email me, and I will do it. Because I do not want to do anything else. It's math math math math math math math all day here! Ha ha ha ha! So happy.

Speaking of math: I'm only charging three dollars and fifty five cents per assignment. Then, I email the assignments back to you, you put your own name on it, and turn it in as your own work! I offer bulk rates as well, ten assignments for thirty two dollars, which is a savings of 10.94%. Again, MATH. I love it! Also, May is my special Algebra sale – 5% off all Algebra homework. Look for more –

She picks up her phone.

Hello? You're saying that's illegal and I shouldn't be talking about it online? Oh. Okay.

She puts down her phone.

I did not realize that selling math homework was illegal. This changes my business plan significantly.

She takes out a ledger.

Luckily I've been studying economics, so that I know when something is illegal, it becomes a LOT more expensive!

Therefore, my rates have changed! Twenty two dollars per assignment! I will be using the extra revenue to hire goons who will enforce collection policies – they will be breaking your legs in a responsible manner. THIS IS SO FUN! Seriously. Buy now while you still can. I am your only hope. Without me you are doomed.

She gets close to the camera.

You won't regret this.
